## UPCOMING EVENTS

# Naval Fire Fighting School

### THIS JUST IN!

Recently I've been given authorization to conduct a tour of **Damage Control Facility Galiano**, the west coast naval fire fighting training facility. The opportunity to tour the building has always been there, but not when live fire training was being conducted. Reservists from the east will be training on **Saturday 26 November** this means the building will be "alive" thus making a much more interesting tour. For those who are thinking of attending, you will require picture identification and you need to confirm your attendance to me by Saturday morning (10:00 a.m. 26 Nov) so I can put you on a nominal role. We will **meet at Tim Horton's on the Island Highway (next to Burger King) at 12:30 p.m. 26 November**, bring your camera. Email/call, [bmwf1@shaw.ca](mailto:bmwf1@shaw.ca) 381-2980 to confirm.

The club will have a Christmas dinner get together at a traditional German Schnitzel house, The Rathskeller. I've posted a sampling of their traditional dishes, (you may need a magnifying glass) you can also visit their website [www.rathskeller.ca](http://www.rathskeller.ca) for more information. If you plan to attend please let me know how many will be in your party so we can inform the Schnitzel house. The date planned is the **10 December 7:00p.m.** The Rathskeller is located at 1250 Quadra Street, downtown Victoria. This should be a fun event, hope to see you all there.

# Annual General Meeting 2006

Victoria BMW

The Ultimate Driving Experience.™

This is your chance to make a difference in your club. If you want to see changes, voice your opinion or volunteer to take an active role in club affairs now is the time. Executive positions available to members will be, President, Vice President, Events Coordinator, Secretary and Treasurer. Our AGM will be held at **Victoria BMW on the 10th January 2006, 7:00p.m.** Everyone is encouraged to attend.

## "e" codes continued

**E 26. M1 1978-1981. Probably one of the most desirable BMW's ever built.**

**E 28. Euro M5. Arguably the best four door sports sedan built in the eighties.**

**E 28. 1981-1988. One of the most common BMW's in town, why? It's the perfect balance for a four door sports car, exceptionally reliable.**

Thanks to Colin Vogel, owner of Dentex for an eye opening demonstration on dent removal. For the dozen members who attended, I don't think any of them could imagine the seemingly simple technique involved to remove a ding. Colin made it look easy...its not! His skills have been honed over the twelve years he has been in business, his steady hand eye coordination and amazing attention to detail were evident as we watched him make a door ding disappear.

This type of damage is common to all drivers in the Capital, not only that, hail repair is very common. The repair solution is simple and inexpensive for most jobs. If you have a ding get rid of it, make your Bimmer or any other vehicle you have ding free. Go see Colin.

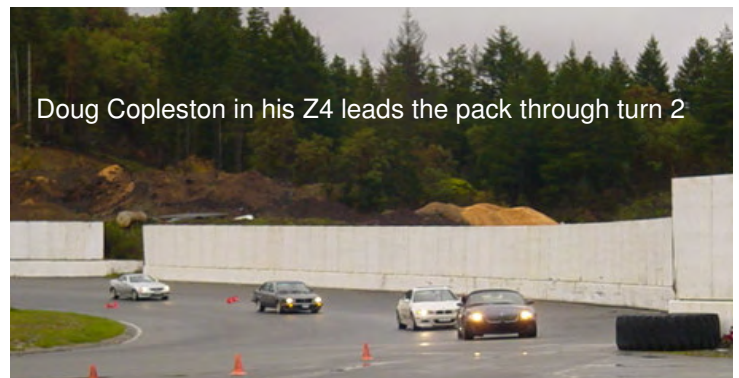

## slip & slide

For those members and guests who braved the elements to participate in our second driving event of the year, disappointed they were not. To call it a slip and slide, even without the Camel Snot was very fitting. Drivers were being a bit more cautious in the rain and those with ABS were thankful.

To all those who participated, thank you and thanks to Roger Harmston and Driving Unlimited for putting on the show.
