

## SAFETY AND FUNCTIONALITY: First Aid Kits and Fire Extinguishers Are Handy

courtesy Roger Harmston

How many times have you gone to the aid of a fellow motorist and not had either a fire extinguisher or a first aid kit. Some, *Frank van der Have* in particular, have been lucky enough to have a first aid kit already in their car. But few of us have fire extinguishers. Now we can change all that.

I have found a source for the German First Aid kits that will fit into our North American cars. They are priced at \$70 USD with brackets and \$50 USD without mounting brackets.

As the source is in Germany, it would be best if we made a bulk order purchase to cut down on the shipping costs.

I've included a picture so you can see what the kit looks like.

The same source can get fire extinguisher brackets that will fit under BMW Sport or regular seats.

If you are interested, send me email ([rharmston@empower-inc.com](mailto:rharmston@empower-inc.com)) or give me a call (744-8942) and we can arrange a single order for the Club.
